
EXERCISES

1. Create a new Project named "Unit1Project1". Create a package named "exercise1" and a Class named "Exercise1". Modify the code inside the main block:

```
public class Exercise1 {  
    public static void main(String[] args) {  
        System.out.print("Hello, how are you? ");  
        System.out.println("Fine thanks.");  
    }  
}
```

What is the output after executing this code?

2. Create a package named "exercise2" and a Class named "Exercise2". Modify the code inside the main block:

```
public class Exercise2 {  
    public static void main(String[] args) {  
        System.out.println("Hello, how are you? ");  
        System.out.println("Fine thanks.");  
    }  
}
```

What is the output after executing this code?

3. Create a package named "exercise3" and a Class named "Exercise3". Modify the code inside the main block:

```
public class Exercise3 {  
    public static void main(String[] args) {  
        System.out.println("1 + 2 " + "+ 3" + " = 6");  
    }  
}
```

What is the output after executing this code?

4. Create a package named "exercise4" and a Class named "Exercise4". Modify the code inside the main block:

```
public class Exercise4 {  
    public static void main(String[] args) {  
        system.out.println(I want this program to compile)  
    }  
}
```

There are some errors on the code. Try to correct them.

5. Create a package named "exercise5" and a Class named "Exercise5". Write a program that displays your name, address and telephone number, each on separate lines.

6. Adapt the above program to include a blank line between your address and telephone number.
7. (Advanced) Create a package named “exercise7” and a Class named “Exercise7”. Write a program that displays your initials in big letters made of asterisks. For example:

```
      *           *           *
    *  *         *           *
  * * * * *     *   *
* * * * *     *   *
 *           *   *           *
*           *   *           *
```

Do this by using a series of println commands, each printing one row of asterisks.
